**Tradies Alignment Consultation**

Our critical 1<sup>st</sup> session, this is where we align ourselves with your business. Generally this session takes between 90 mins to 2 hours and some of the areas we cover include...

To understand what you want out of your business in the next 12 months, 3 years, 5 years plus...

To determine what you want out of life, YOUR personal goals, short term, mid term & long term

To come up with ideas on strategies that will guide you to achieving your goals.

Look at current marketing, systems, recruitment process, etc.

SWOT Analysis, what are you good at, what do you need to improve, what opportunities are available and what could send you broke tomorrow and what contingency plans need to be put in place today.

---

---

---

---

---

---

---

---

---

---

---

---

---

---

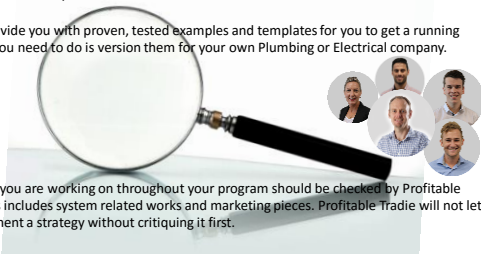

---

---

**Reviewing your work...**

As a client you and your team will be responsible for coming up with the 1<sup>st</sup> draft of each strategy... this is how you learn!

We will provide you with proven, tested examples and templates for you to get a running start... All you need to do is version them for your own Plumbing or Electrical company.

Everything you are working on throughout your program should be checked by Profitable Tradie. This includes system related works and marketing pieces. Profitable Tradie will not let you implement a strategy without critiquing it first.

---

---

---

---

---

---

---

---

**What if I need to Contact my Coach?**

This is how Profitable Tradie fast track results with clients...

You'll have a monthly Sherpa call and Q & A Webinar to ensure you are on track and answer your questions. Plus you can contact us directly for those curly questions for up to 1 hour per month... we are a partner in your business.
